***But first...***

## **Two rules of conduct in the digital living room of JASS**

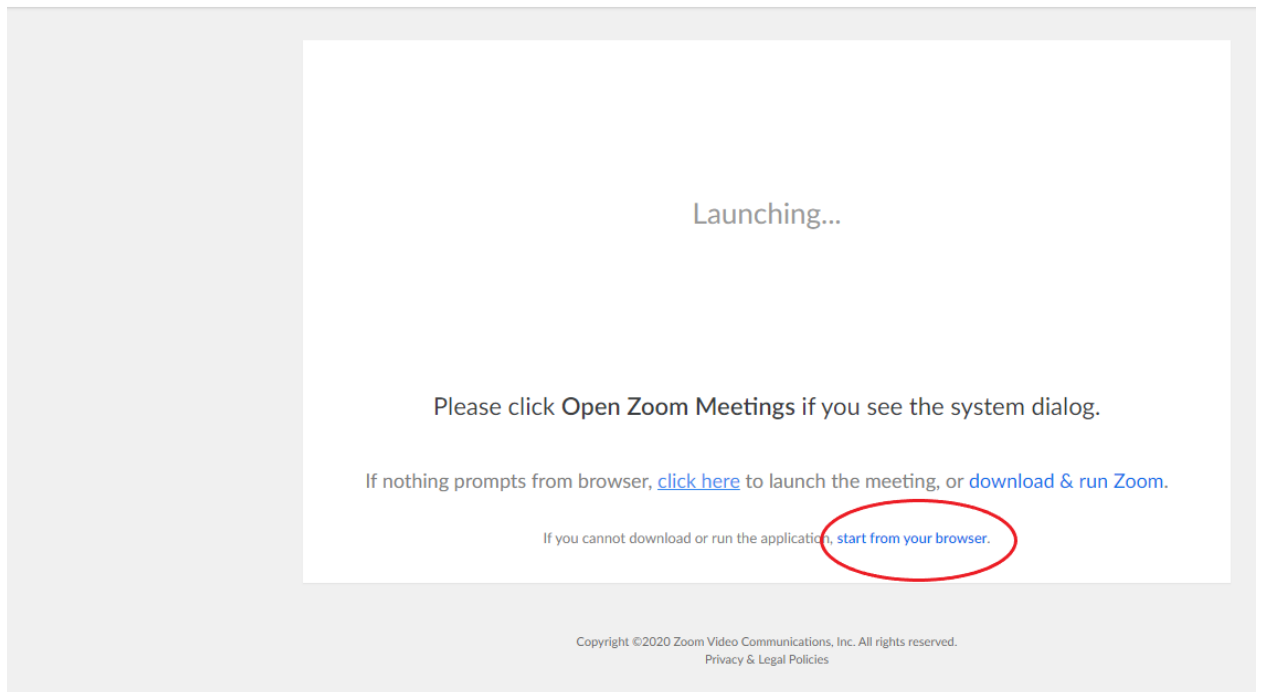

If everyone adheres to the following simple rules, we can avoid chaos:

- 1. When you're listening, mute yourself.**
- 2. If you want to say something, turn on your microphone and raise your hand, so the moderator knows that you have something to say and can give you the floor as soon as possible.**

## Online

1. To use Zoom in your browser, open the invitation link  
→ You can find the link for the specific Event on [Facebook](#) or on the JASS [Homepage](#)
2. You will be asked to install the software or to open the meeting via the App. **Decline both.**
3. Now a message with the link "start from your browser" will appear.  
**In case this link does not appear**, click first on "click here" and **reject the download again.**
